Century Ponds Construction Update

August 7, 2026

Hello neighbors,

We wanted to share a quick update on paving progress in the neighborhood.

Paving on the south side of the project area (the townhome area) is expected to be completed by the end of this week. Paving on the north side streets is currently anticipated to be finished by Labor Day weekend, weather permitting.

Thank you for your continued patience and understanding as construction continues.

Additional updates will be shared as work progresses.
