Re: Century Ponds – Linwood Ave Watermain Extension

Dear Neighbors:

Given the favorable weather conditions, development activities are moving along in Century Ponds. You are receiving this notice as it relates to the utility extensions along Linwood Ave to serve the new neighborhood (see graphic below) – sanitary sewer (red line) is being extended from the east and watermain (blue line) is being extended from the west. This work is anticipated to **start the week of May 18th** and planned to take up to **3 weeks to complete**, weather dependent.

What to expect:

- Monday, May 18th – Construction material delivery
- Tues, May 19th – Construction start sanitary sewer on the east end of Linwood.
- Tues, May 26th – Construction start on watermain.
- May 19th through Jun 12th – All homes along Linwood Ave will have access during this time. However, depending on the daily schedule, there may be days when access to the east is restricted and some days when access to the west is restricted.

If you have questions or concerns, please contact Nathan Fair at 763.438.2561 or nathan.fair@results.net.

Thank you.
